Marian's Dream

Re: Veterinary Task Force on Feline Sterilization

Dear Ms. Mechler,

The Association of Shelter Veterinarians is pleased to provide its endorsement of the recommendations put forth by the Veterinary Task Force on Feline Sterilization. Our Association has long been a proponent of early-age sterilization of both dogs and cats and recognizes this practice as a medically sound component of a comprehensive non-lethal population control strategy.

Sincerely,

Brian A. DiGangi
President
Association of Shelter Veterinarians
