Dear Ms. Mechler,

Winn Feline Foundation is pleased to endorse the recommendation put forth by the Veterinary Task Force on Feline Sterilization. Our Foundation has funded feline health studies showing the safety of early spaying and neutering of cats and our board members unanimously approved of the Feline Focus Task Force call for veterinary practitioners and professional associations to recommend sterilization of cats by five months of age. This recommendation should provide veterinary practitioners with a consistent message that may increase veterinary visits and spay/neuter compliance while reducing the risk of pet relinquishment and unwanted offspring.
